I believe it to be UNSOUND

If you consider the draft plan strategy to be SOUND, and wish to support the plan strategy, please set out your comments below. You can attach any supporting information necessary to justify your SOUND representation by clicking 'choose files' below. (If you consider the draft Plan Strategy to be UNSOUND please go to Q7.)

I do not believe the infrastructure surrounding Moira is capable of sustaining more traffic. I believe the volume of traffic is impacting adversely on business and the quality of life of residents. There must be an adverse impact of emissions from the huge volume of traffic often stopped in traffic jams. This is further compounded when vehicles are making deliveries to local business. Journey times through Moira are significant particularly on the morning and evening runs to and from work. Lack of parking at Moira railway station makes using the train difficult for commuters and impossible at other times of the day. Road infrastructure through Moira and its adverse impact on journey and quality of life in the village is missing from this strategy.

Q6. If you have any additional information to upload in order to explain your SOUND views please do so
